

Fortune Consulting, Inc.

Furnishes IT & Telecom Services to Government Agencies and Prime Contractors.

Fortune Consulting - A Technology Advisor

Fortune Consulting has over a decade of experience managing a wide range of IT and telecom networks to the government sector. Since 1994, we have been helping agencies and clients implement the latest in technology choices. We have specialists who study all aspects of the latest technology and use our cost modeling to meet the specialized situation of each client. Our teams have various levels of **Security Clearance** to meet any requirement within Federal Government whether it is a new installation or relocation. Fortune is able to service our clients nationwide as well as anywhere in the world.

Fortune Consulting offers IT and Telecom support for Government and the Public Sector

Fortune Consulting has been helping Government and the Public Sector as well as the Private organizations to plan, implement, purchase and project manage all phases of IT and Telecom projects to provide our clients with solid technological solutions documented and designs while meeting targeted time constants and financial goals.

Fortune Consulting Manages Vendors

Fortune Consulting will prepare all RFP bid specifications and assist or manage the bidding process. Our experienced consultants are available to help select the best contractors and equipment vendors to meet quality, capability, and budgetary requirements of any project. Once the project has been awarded, we will even manage the entire implementation.

Impartial Consulting

Fortune Consulting is a certifiable independent consulting firm, as a result of our membership in the Society of Telecommunications Consultants. As impartial consultants, we assure to our clients, that they will receive an honest impartial perspective on every phase of a network assessment, design, or implementation.
